Dear Kangbo Shi,

Congratulations on your admission to graduate study at the University of Southern California. Your academic records indicate that you will make a significant contribution to academic life at the university.

You have been admitted as a graduate student in Applied Data Science within the Andrew and Erna Viterbi School of Engineering for Fall 2022. Your degree objective is the Master of Science. Please include your USC ID (6626-9455-86) whenever you correspond with the university. This admission is offered subject to your maintaining your present level of academic achievement.

If you have not already done so, you must provide proof of satisfactory completion of any studies in progress, and submit final academic records from each institution you have attended. Important information about placement exams and orientation will be sent to you by e-mail.

While enrolled at USC, you are expected to maintain a 3.0 GPA or better to remain eligible to complete your degree. Please note that any courses taken outside of those specified for your degree program in the USC Catalogue require advance approval from your department. Change of major requests may be submitted only after completion of your first semester.

Please carefully review the enclosed Continuing Registration Requirements information, which lists all the requirements you must meet within your first term(s) of USC enrollment to continue in your degree program. You must meet with a staff advisor to resolve these conditions.

We encourage you to review the admitted student portal at gradwelcome.usc.edu which includes specific information about registration and enrollment. You will also find a link to the Statement of Intent: Graduate Studies form whether or not you decide to enroll at USC. Certifying your USC enrollment will allow you to create your university e-mail account, register for Graduate Student Orientation, and access your USC records.

We are delighted to officially welcome you to our community of scholars and look forward to seeing you on campus!

Sincerely,

Timothy E. Brunold
Dean of Admission
